**“LEADERS ARE MADE, THEY ARE NOT BORN. THEY ARE MADE BY
HARD EFFORT, WHICH IS THE PRICE WHICH ALL OF US MUST
PAY TO ACHIEVE ANY GOAL THAT IS WORTHWHILE.”**

-VINCE LOMBARDI

At Acelot, we guide corporate leaders on a journey of self discovery that maximizes their potential and prepares them for future responsibilities. The process of coaching helps top talent to discover their own path to their goals. Our inspiring coaches enable breakthrough progress for the individual and results for the organization.

WHY COACHING?

Coaching for Performance is seen as an external facet to how we lead our lives and manage our professional roles. Most coaching scenarios are around areas of performance improvement: the ability to take strategic decisions, accelerating the capacity to execute on goals, enhancing the productivity of the team, managing time and priorities, etc.

Coaching for Being addresses the foundational principles that dictate a person's thinking, their behavior and therefore action. It is like working at the foundational level to uncover deep-rooted paradigms or thinking patterns so that the performance is enhanced. Uncovering tacit values and building resilience for handling change ensures that the coachee is both joyful and effective.

WHAT WE DO?

MENTORING

Mentoring is a well-established method for fast-tracking people with leadership potential. It can assist people in any minority group to navigate organizational challenges and achieve more for themselves and your organisation. A great mentoring program may be on the list of 'must-haves' for potential new recruits. Onboard them and keep them happy with mentoring.

COACHING

The effectiveness of the Coaching Engagement is dependent upon the chemistry between the Coach and Coachee. Once the chemistry is established, coaching effectiveness is then indexed around the assessments, tools, frameworks and processes that the coach brings to play within the engagement. Acelot is privileged to leverage the diversity of its Coaches to suit the specific organizational and personal needs.

TRAINING

Training in the context of people development would mean conducting planned interventions to a set of people or Individual to develop a skill, gain in knowledge or work on the attitude that relates to improving specific useful competencies.
